

EXIMODRILL®

INTEGRATED MANAGEMENT FOR OIL AND GAS
INDUSTRY SOFTWARE

EXIMODRILL GOAL IS TO BECOME THE GREATEST TOOL FOR GATHERING MEASUREMENTS THAT ALLOW KEY DECISIONS, MAKING PROJECTIONS AND BUDGETS, MANAGEMENT ANALYSIS, MEASURE PERFORMANCE LEVELS AMONG OTHER THINGS.

IT'S A SOFTWARE DEVELOPED SPECIFICALLY FOR GAS AND OIL COMPANIES, MAINLY ORIENTED TO THE SO-CALLED WORK TOWER COMPANIES.

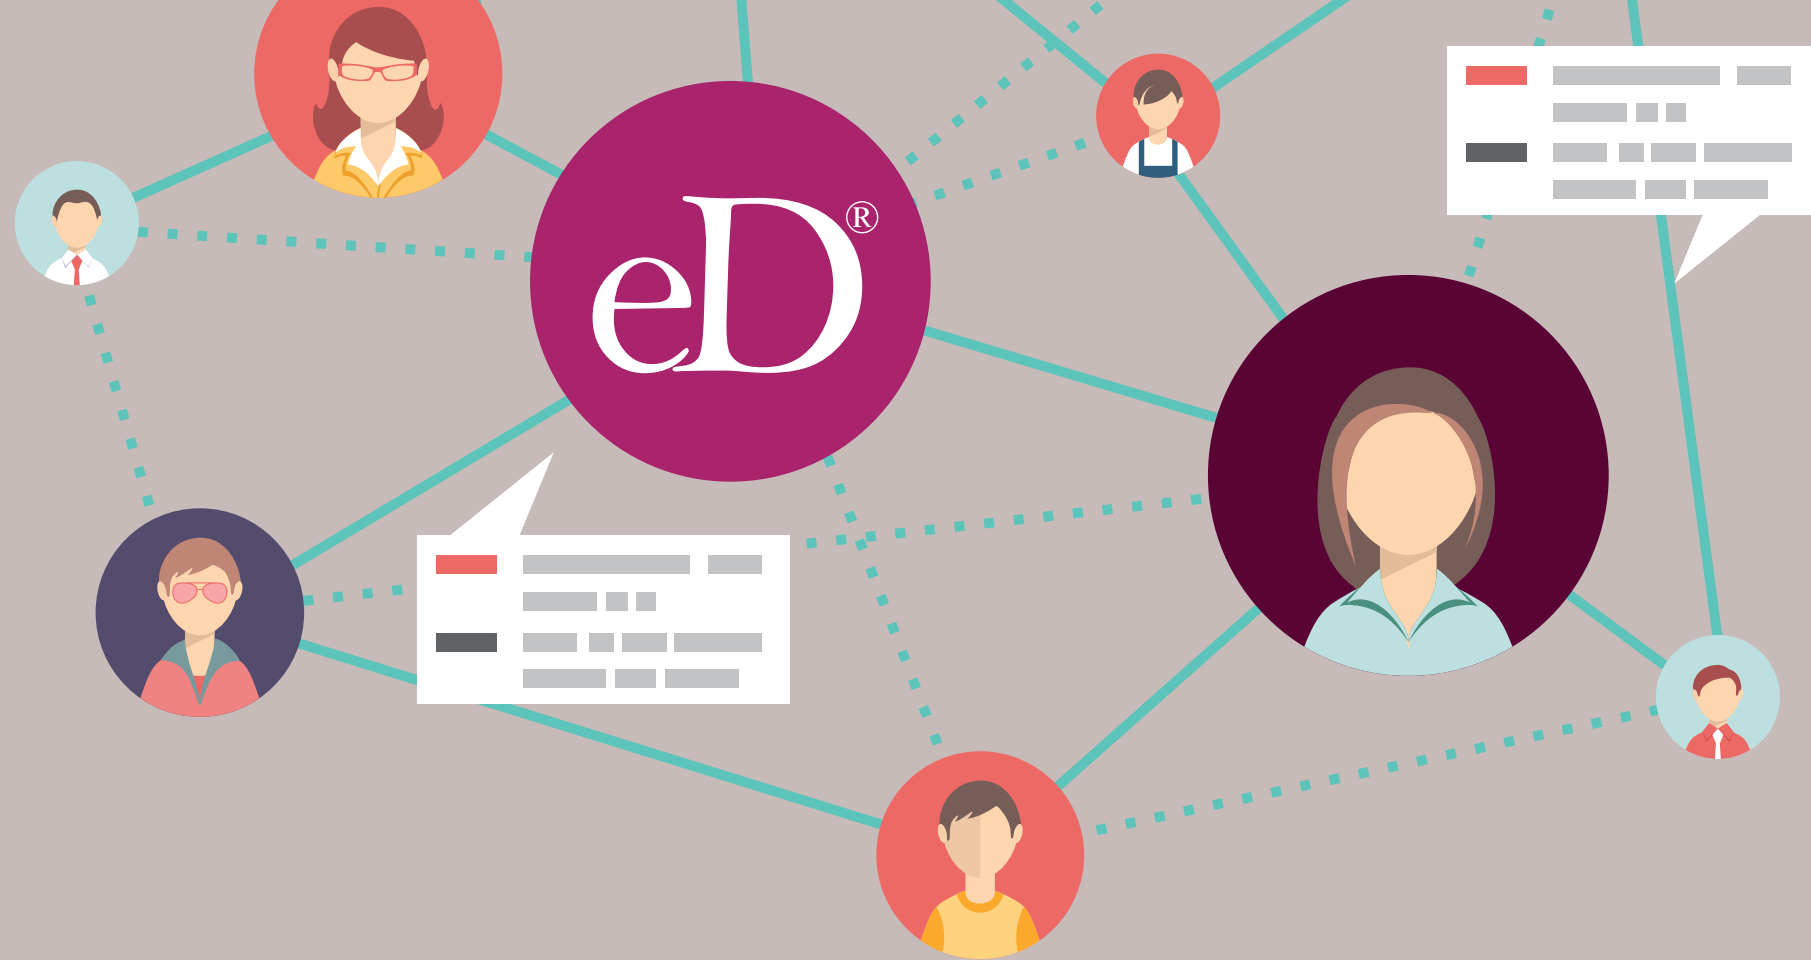

IF THE GOAL IS TO HAVE A COMMAND BOARD WITH COMPANY ACTIVITY INDICATORS, SUCH AS FINANCIAL, ECONOMICAL AND OPERATIVE AREAS ALONG GENERAL QUALITY, EXIMODRILL IT'S THE TOOL YOU NEED.

TECHNOLOGY

WITHOUT BIG EQUIPMENT INVESTMENTS, OR EXPENSIVE LICENSES AND BY ONLY HAVING INTERNET CONNECTION, YOUR COMPANY COULD HAVE THIS INTEGRAL MANAGEMENT SOFTWARE DEVELOPED FOR GAS AND OIL INDUSTRY.

FREQUENTLY ASKED QUESTIONS

DOES THE COMPANY HAVE TO INVEST IN TECHNOLOGY OTHER THAN THE CURRENT, IN ORDER TO IMPLEMENT THE SOFTWARE?

Given the technology which are the modules are designed (Web Enabled) the company only needs a hosting service for the application to work.

CAN I ACCESS THE PRODUCT INFORMATION FROM ANY GIVEN POINT FROM INSIDE THE COMPANY?

The software is developed with Web technology (ASP+MS SQL Server), wich grants any internet connected user the access to the application and it's information without the need to install further additional software in the computers.

IS THERE A SOLUTION PLANNED FOR CONSULTING/ACCESSING INFORMATION FROM NO INTERNET CONNECTED PLACES?

The system have an off-line module, wich allows to register information from the Operation Logs, and then refresh the central data base with the desired frequency. Nothing is lost nor stops refreshing.

IN WHICH WAY MAKES EASY COMMUNICATION WITH OTHER SYSTEMS SOFTWARE COMPANY?

The application allows the use of interfaces, among other products from suppliers, which has to be developed based on the customer needs. Currently there Interfaces to eXimo IActivos and to eXimo IQuality.

DOES THE PRODUCT HAVE HELP DESK?

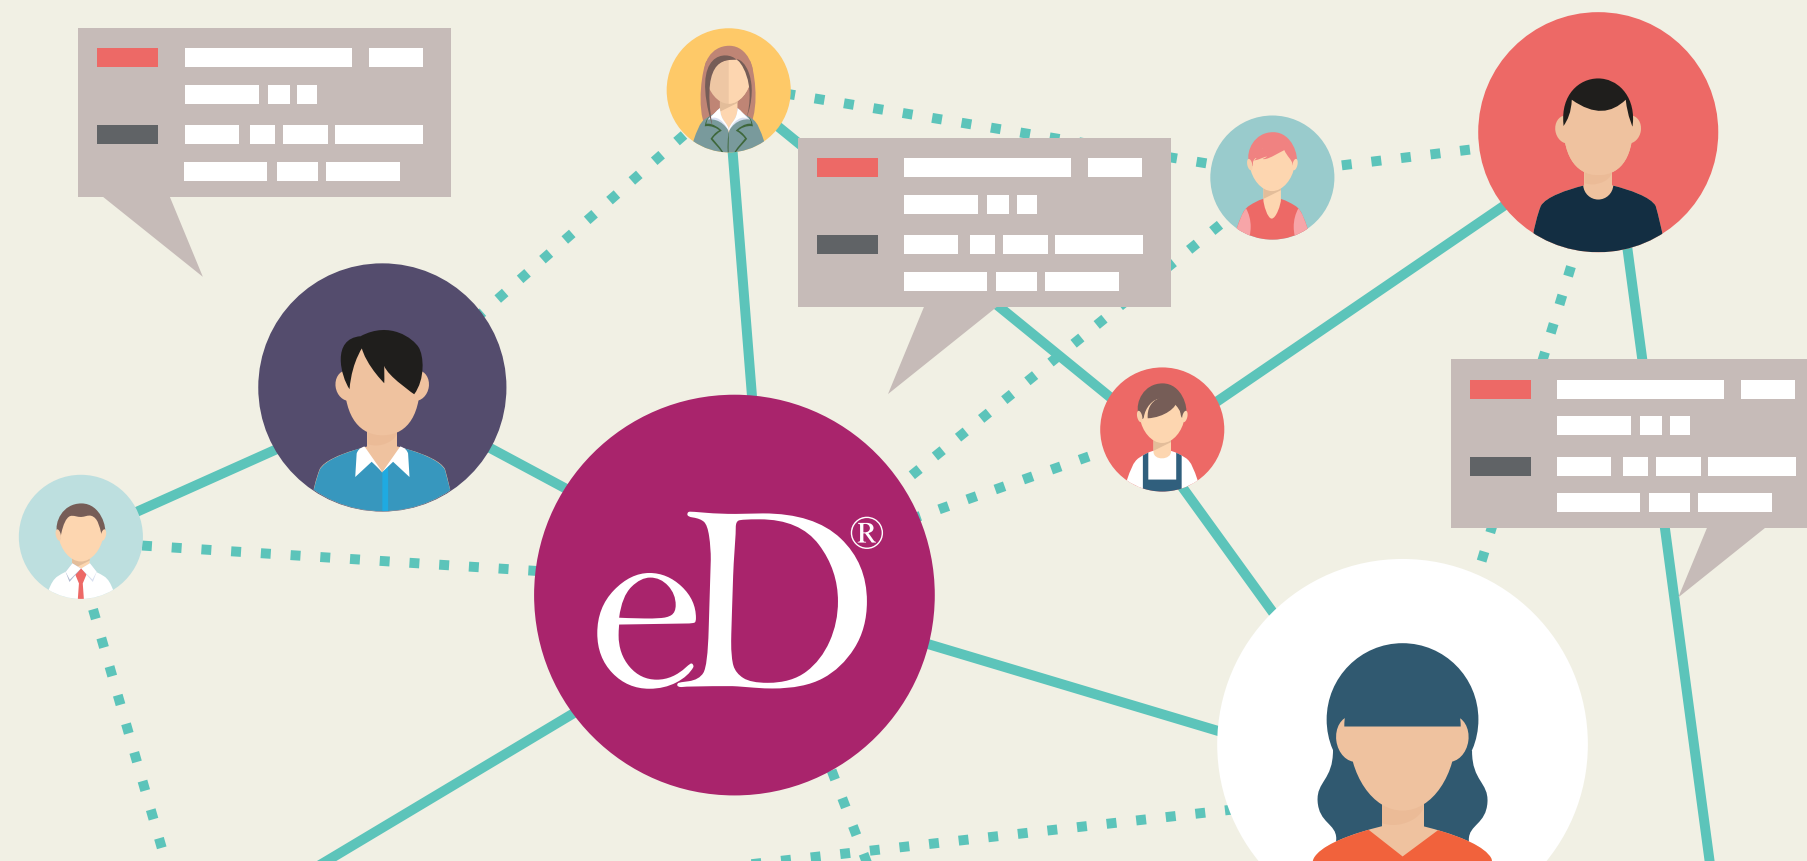

By customer request it could be possible to establish a support and maintenance service like the one that currently have all the eXimo products.

DOES THE SOFTWARE ALLOWS COMPANY PREVENTIVE AND CORRECTIVE MAINTENANCE MANAGEMENT?

Trough eXimo IActivos system, wich is closely bonded to eXimoDrill,the company can carry all preventive, predictive and corrective management of equipment and transport fleet.

CAN THE SOFTWARE BE CUSTOMIZED BY USER DEMANDS?

This product, like all eXimo developed products, is customization feasible both by user request or additional requirements.
