FREQUENTLY ASKED QUESTIONS

WHAT IS EXIMO IQUALITY?

eXimo IQuality is a support management system management software for quality, safety and environment. It's an strategic tool in document management because it allows those involved in the publication of documents communicate and control documents versions published. Also has a module of nonconformities, which allows registering them, performing analysis, treatment, monitoring and closing of them.

TO WHOM IS THE SOFTWARE DIRECTED?

The software is directed to both Small and Big companies that are in certification process (or already certified) under Argentinean ISO norms 9001- ISO 1401 OHSAS 18001.

HOW CAN I TEST THE SOFTWARE?

By Requesting a trial version through the contact page or by email to info@eximo.com.ar. The trial version will have a time limit.

DOES THE PRODUCT HAVE HELP DESK?

By customer request it could be possible to establish a support and maintenance service like the one that currently have all the eXimo products.

CAN THE SOFTWARE BE CUSTOMIZED BY USER DEMANDS?

This product, like all eXimo developed products, is customization feasible both by user request or additional requirements.

MY COMPANY HAS VARIOUS VENUES. SHOULD I ACQUIRE MORE THAN ONE LICENCE?

It's not necessary acquiring more than one licence. Trough the service monthly payment you acquire one licence that can be used for managing multiple venues.

Only those companies that by particular characteristics require to have separated documentation in each headquarters will have to acquire more than one licence, each by individual payment.
